*Proceedings of the Madras Government, Public Works Department,
1st September 1871.*

No. 7.

Under date 1st September 1871, No. 2,229.

ESTABLISHMENT, No. 1.

THE attention of Government having been drawn to the circumstance that some practical inconvenience will be experienced in the working of expenditure on roads under Local Fund Boards, by reason of the boundaries of Public Works Ranges not being conterminous with those of the Local Fund Circles as defined in the Notification of Government, dated 9th May 1871, it is resolved to request the Superintending Engineers to take the question into early consideration in order to their proposing such a re-arrangement of ranges as will obviate the officer in charge of any one having to deal with more than one Local Fund Board; and, it being on other grounds most desirable that the number of Public Works Ranges should, if possible, be reduced, the Superintending Engineers will endeavour, in reply to the present reference, to give effect to the wish of Government.

(True Extract.)

Captain, R.E.,

Under Secretary to Government.
