No. 19. Read the following Endorsement of the Officer in charge of the Office of Chief Engineer for Irrigation, dated Fort St. George, 4th August 1871, No. 59:—

From the Agent and Manager of the Madras Irrigation, and Canal Company, to the Acting Chief Engineer for Irrigation, dated Madras, 2nd August 1871, No. 334.

With reference to your memorandum No. 74, dated 7th ultimo, and G. O., No. 1,704, of 26th June, the Chief Engineer informs me that the sluice lascars' huts, Nos. 2, 4, 6, 14, and 17 or 18, are proposed to be at lowered parts of the banks, where there are no scouring sluices yet sanctioned. Mr. Latham says the rest will be near scouring sluices or calingulahs having shutters.

2. The Chief Engineer further states that these permanent huts will, he expects, be found cheaper than the annual huts hitherto erected merely as shelter for bankers.

Submitted to Government with reference to their Proceedings, No. 1,704, of the 26th June last.
