GROUNDS OF PROPOSITION.

It is anticipated that unless funds are at once provided for completing the Workshops for the European Infantry, and the Orderly-room and Military Offices at Cannanore, and thereby placing these buildings in a safe condition, serious damage is likely to occur on the setting in of the monsoons on the Western Coast. Hence the transfers proposed against Items 1 and 2.

2. Funds for the works noted as Items 3 and 11 are urgently needed, the buildings having suffered from the recent cyclone.

3. Item 4 is intended to supplement a like amount obtained by private contribution. The execution of the work is reported to be absolutely necessary.

4. The Range Office at Vythery in the Wynaad is reported to be in a state of utter disrepair, and as it is necessary that immediate measures should be taken for providing accommodation for the office and Government records, the transfer noted against Item 5 is proposed.

5. As estimates for the anicut across the Pooniar river in the South Arcot District have not yet been sanctioned, the grant provided in the Budget for the work has been held at the disposal of Government, and Rupees 8,000 of the amount is now proposed to be diverted to the project appearing as Item 6, the estimate for which was sanctioned in May last. Provision has also been made in the outgoing Budget for this work.

6. Under the ruling of the Government of India recorded in letter, No. 1,977, of the 31st March 1869, reviewing the Marine Budget of this Presidency for the year 1869-70, the expenditure incurred on fixing the new lanterns at Pulicat, Armaghon, and Point Devi is chargeable to the Public Works grant. The transfers against Items 7 to 9 are intended to meet the cost of the work.

7. Item 10. This small amount is much needed to carry out some emergent repairs to the sick lines at the Remount Depôt at Oossoor.
