No. 388. Read the following Endorsement of the Superintending Engineer, 8th Division, dated Madura, 28th August 1871, No. 1,918:—

From Mr. J. B. SANDERSON, Supervisor, in charge of Operations, Paumben, to the Superintending Engineer, 8th Division, Madura, dated Paumben, 22nd August 1871, No. 24.

In reply to your memorandum, No. 1,765, 18th August 1871, I have the honour to state that it is my wish to be examined in Tamil on the 2nd of October, but that the channel blasting operations will be in progress till the 20th or 25th of October. I therefore have the honour to request, if it cannot be postponed till after that date, I may be permitted to travel by post bullocks to and from Madura for the purpose.

Submitted for the favourable consideration of Government with reference to G. O., 23rd June 1871, No. 1,696.

2. The undersigned has the honour to suggest that Serjeant Sanderson should be directed to present himself at the quarterly examination held at Madura in January next. The distance between Paumben and this place, *via* Ramnad, is 91 miles. Between Ramnad and Madura the road is very indifferent, but between Paumben and Ramnad there is no road at all. The journey is thus rendered very tedious, and as it would take Serjeant Sanderson away from his work just at the close of the season, it is not desirable that he should leave his station at that time for so many days together as this journey would entail.

3. If it is not feasible to examine Serjeant Sanderson at Paumben itself, it appears desirable that his examination be postponed as above recommended, as in January the weather does not permit the operations to be continued at Paumben.
