Proceedings of the Madras Government, Public Works Department, 26th September 1871.

No. 445. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Combaconum, 2nd September 1871, No. 490:—

WITH reference to paragraph 2 of G. O., No. 1,632, dated the 17th June, I have the honour to inform you that the auction sale of the coal therein referred to was duly advertised in the *District Gazette* and was fixed for the evening of the 7th August, but as there was no attendance on that evening the sale was deferred till the evening of the 10th August, intimation that it would take place being given in the town by beat of tom-tom on the two preceding days. The Range Officer reports that on this occasion there were only three or four bidders, and the highest amount bid for the coal was only Rupees 18. The coal, it will be observed from my letter No. 212, dated the 21st May, was quite pulverized and utterly useless, and, as it was not likely that it would fetch more, the coal was knocked down for the sum of Rupees 18. I request, therefore, that the difference, Rupees 636-3-8, between the stock value of the coal and the amount realized may be ordered to be written off from the accounts.

No. 446. ORDER THEREON, 26th September 1871, No. 2,457.

ACCOUNT, No. 41.

THE Government grant authority for writing off to "profit and loss" the sum of Rupees 636-3-8, being the difference in value between the sale proceeds and the book value of 27 tons of coal which was stored at Negapatam.
