Public Works DEPARTMENT.

G.O. No. 2538 Press / Mis.

77-78

Dated 6-10- 1877

Not to be folded or roughly handled

No. 77. Read the following letter from the General Superintendent of Public Works Stores and Workshops, to the Secretary to Government, Public Works Department, dated Chepauk, 15th September 1871, No. 472 :—

I HAVE the honour to forward, for consideration and orders of Government, the accompanying letter and estimate received from the Superintending Engineer, 8th Division, for stores required from England for the year 1872-73 for use in his division.

1 Letter, No. 2,140, dated 11th September 1871.
1 Estimate.

2. The general estimate for Public Works stores required from England for the ensuing official year having been submitted to Government with my letter No. 381, dated 16th August last, this estimate, since received, has not been included in it.

3. It will be observed that the stores are required for an extraordinary work, and the Officer in charge of the Perryaur Project states that, should Government sanction the carrying out of the scheme as proposed, the machinery, etc., will be required in 1872-73. In the estimate accompanying I have marked with red ink the articles which could be supplied from the stock in hand, the other articles could be obtained from England on indent which will be forwarded in December next.

From the Superintending Engineer, 8th Division, to the General Superintendent of Public Works Stores and Workshops, dated Madura, 11th September 1871, No. 2,140.

I HAVE the honour to forward the estimate of stores likely to be indented for from England during the official year 1872-73, with reference to your Circulars, Nos. II. and III., dated 7th June and 10th July 1871.

2. I take the opportunity of mentioning that I hold myself in no way responsible for the formidable list of stores stated by the Officer in charge of the Perryaur Project to be required in 1872-73, as the project is being worked irrespective of this office.

3. As however the list of all the stores required for the division has to be presented in one return, and as there are no stores required for this division irrespective of those needed for the Perryaur Project, it thus happens that I have to go through the form of countersigning and submitting for sanction a list for the necessity of which I am not, in truth, in any way answerable.

No. 78. ORDER THEREON, 6th October 1871, No. 2,538.

CIVIL WORKS, No. 9.

THE estimate of stores required for the Perryaur Project will be referred to the Officiating Chief Engineer for Irrigation for consideration, and in the event of that project being hereafter sanctioned, such stores as may be urgently required will be specially indented for under paragraph 17, Section II., Chapter XVII., of the Code of the Government of India.

(True Extract.)

Captain, R.E.,
Offg. Joint Secretary to Government.

To Chief Engineer for Irrigation, with Estimate.
" Superintending Engineer, 8th Division.
" General Superintendent of Public Works Stores and Workshops.
