Proceedings of the Madras Government, Public Works Department, 9th October 1871.

No. 138. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 16th September 1871, No. 1,878 :—

ADVERTING to G. O. of the 29th July last, No. 1,996, I have the honour to re-submit the plan of the Telegraph Office proposed to be constructed at Rajahmundry, as it appears some mistake has been made in noting the dimensions of the room for the public as 6 feet by 5 feet—the dimensions are 6 feet by 10 feet according to the plan; but this is inconvenient from the circumstance of the width being only 6 feet; in fact, the thing is really a narrow passage which ought to be avoided in a building designed for public use.

One Plan.

No. 139. ORDER THEREON, 9th October 1871, No. 2,571.

TELEGRAPH, No. 4.

THE Government concur with the Superintending Engineer in considering that even 6 feet by 10 feet would not be adequate for the purposes of a receiving room. Major Fischer will accordingly at once make the reference to the Director General of Telegraphs which he was instructed to do in G. O., No. 1,996, dated 29th July 1871.

(True Extract.)

Captain, R.E.,
Offg. Joint Secretary to Government.

To the Acting Superintending Engineer, 1st Division.

MADRAS

SIR,

I duly rec'd by G. O. of the 29th July last No 1996 I have the honor to re-submit the Plans of the Telegraph Office proposed to be constructed at Rajahmundry, as it appears some mistake has been made in taking the dimensions of the rooms for the public as 6×5 - the dimensions are 6×10 according to the Plans; but this is inconvenient from the circumstance of the width being only 6 feet, in fact the thing is really a narrow passage which ought to be avoided in a building designed for public use.

I have the honor to be

Sir,

Your most obed.t Serv.t
