G1

No. 30. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 4th October 1871, No. 2,093:—

I HAVE the honour to forward herewith copy of a report received from the Executive Engineer in charge of No. 3 Range, Godavery, on the carelessness and laziness of Delta Superintendent Soondarasivarow, and recommending that he be made to pay the cost, namely, Rupees 54-9-0, of some useless work for which completion certificate cannot be given.

2. As the above-named subordinate appeared to me to be incapable of carrying out works, or understanding the importance of these when ordered for execution on emergency, I ordered him to be reduced to a less responsible position. He will accordingly be reduced from the grade of Delta Superintendent, 3rd class, to the next lower grade, and as this will be sufficient punishment, I request that the value of the useless work carried out by him may be written off to "profit and loss," if approved of by Government.

No. 31. ORDER THEREON, 2nd November 1871, No. 2,774.

ESTABLISHMENT, No. 6.

As, in the opinion of the Superintending Engineer, a reduction in grade is a more fitting punishment for the useless expenditure reported in connection with the Godavery Lunka at the village of Yenumallunka, by Delta Superintendent Soondarasivarow, than retrenchment of the amount from the Superintendent's salary, the Government sanction that method of dealing with the case, but the outlay incurred, of Rupees 54-9-0, should be charged to the work concerned. The Controller of Public Works Accounts will be authorized to admit the charge without the usual completion certificate.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Acting Superintending Engineer, 1st Division.

Sir,

The Executive Engineer
No 3 or Western Delta Range
Godaury District.

To:

The Superintending Engineer
1st Division
New Orleans.

Sir

I have the honor to bring to your notice the following circumstances

On the 9th August, I found that the Godaury Levee at the Village of Pierre Part had been considerably eaten away and that in order to try and save further by the Village it was advisable to sloped back the Levee, and put up a bamboo fence with brush wood filling principally to break the wash of the waves during the freshes - I immediately issued orders to Delta Superintendent Sundar - ravisarow to get the Work done with all possible expedition - I enclose the Estimate for you to see how simple was the work: Excepting the sloping there was little labor required, and the materials were easily obtainable at Dalcour.

Enclosure in a
letter No 2098 dated
4th Instant from
the Supg Engineer
1st Division to the
Secretary to Govt
Dept of Works

II On the 4th Instant I visited the flume, and found to my surprise that the work was not nearly done. I again urged expedition in carrying on the Work, but on the 15th Instant I found that little had been done since my last visit, that water had risen, and that the Work could not be satisfactorily finished, and its object had already been partly frustrated. It will be impossible for me to sign a completion certificate for the work. The closing done is of use the rest of the work almost useless. The cost of the former has been Rs 78. of the latter Rs 54-9-0, and I would recommend that Sundarasivaram be made to pay (Rs 54-9-0) the expenditure of which has been rendered useless by his laziness and carelessness. His pay is Rs 40 a month, and the amount might be recovered if you approve, in five monthly instalments.

I have &c &c
