Proceedings of the Madras Government, Public Works Department, 6th November 1871.

No. 78. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 24th October 1871, No. 1,373 :—

HAVING this day received from the Officiating Superintending Engineer, 6th Division, a copy of the measurement book referred to in paragraph 4 of G. O., No. 52, dated 6th instant, I have the honour to submit, for the consideration of Government, the form which has been in use in this division for some time, and which fully answers the purpose for which it was prepared.

2. I therefore request to know if Government insist upon the introduction of the 6th Division form into the ranges in this division, for I do not quite see, I would respectfully submit, that this form has any advantage over the one now in use.

3. An improvement upon this division form would be to have it in counterfoil, bearing numbers, and in a half-bound book, so that an Overseer has only to fill up the two copies, keeping one for his own record and the other, which he sends in, for the range. At present this is done, but not being in book-form and unnumbered, are the only objections I see to the form of this division, and these I intend to remove when the present stock of forms is used up.

No. 79. ORDER THEREON, 6th November 1871, No. 2,798.

ESTABLISHMENT, No. 9.

As the form of note book in use in the 3rd Division appears calculated to afford all needful information, the Superintending Engineer will be at liberty to authorize its continuance in counterfoil, if thought necessary.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

Enclosures. /

Sir,

Having this day received from the Offg: Superintending Engineer 6th Division a Copy of the Measurement Book referred to in para 4 of G.O. No 52 Dt: 6th Instant, I have the honor to submit for the consideration of Government the form which has been in use in this Division for some time and which fully answers the purpose for which it was prepared.

2. I therefore request to know if Government insist upon the introduction of the 6th Division form into the Ranges in this Division for I do not quite see, I would respectfully submit, that this form has any advantage over the one now in use.

3.- The improvement upon this Division form would

would be to have it in Counterfoil bearing Stamp and in a half bound book, so that one Person has only to fill up the two Copies keeping one for his own Record, and the other, which he sends in for the Charge. At present this is done, but not being on both Form and numbered are the only objections Subject to the Form of this Division, and these I intend to remove when the present Stock of Forms is used up.

I have the honor to be
Sir
Your most Obed. Servt.

[illegible] Lieut. R.E.
Superintending Engineer 3rd Div.
