Proceedings of the Madras Government, Public Works Department,
10th November 1871.

No. 197. Read the following Petition from RAMACHENDRA CHARIAR, Shrotriemdar of Palakunnum, Trinomalay Talook, South Arcot:—

Praying that certain tanks may be supplied with water. } (Here enter, 27th October 1871.)

No. 198. ORDER THEREON, 10th November 1871, No. 2,858.

IRRIGATION, No. 10.

WITH reference to the Acting Superintending Engineer's endorsement No. 161, dated 8th October, on the petition of Ramachendra Chariar, Shrotriemdar of Palakunnum in the Trinomalay Talook of the South Arcot District, referred to the Superintending Engineer of the 5th Division on the 18th August, the Government observe that the Superintending Engineer states that the beds of the tanks, which the petitioner desires to have supplied, are 200 feet above the level of the river from which the supply has to be drawn. The petitioner states that the lands which surround his village, and which are on the same level as his lands, are supplied from the river from which he desires to draw a supply. Under these circumstances the Government desire to be informed whether the Superintending Engineer is aware, from personal observation, that petitioner's lands cannot be supplied from the channel taken from the river which supplies the neighbouring lands, and, if not, that a detailed report on the subject may be made after the locality has been examined by a competent officer.
