Dated 14. 11 1871.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 14th November 1871.

No. 278. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Kotergherry, 10th October 1871, No. 148:—

I HAVE the honour to bring to the notice of Government that Captain Bailey has miscalculated his requirements for the current year for the Central Jail at Cannanore, and that instead of Rupees 3,505, reported in my letter No. 117, of 20th September 1871, as available for transfer from the allotment for that work to the sea custom-house at Mulki and the Deputy Tahsildar's Cutcherry at Annamalay, only Rupees 1,500 are available; I request that this amount may be appropriated for the Mulki Custom-house, for which an estimate of Rupees 1,800 was sanctioned in G. O., No. 93A., of 17th August 1871, leaving a balance of Rupees 300 to be provided from other sources at the disposal of Government, while nothing remains for transfer as proposed in my letter No. 118, of the 20th idem, for Annamalay cutcherry.

No. 279. ORDER THEREON, 14th November 1871, No. 2,893.

ACCOUNT, No. 23.

As it appears from this letter that instead of Rupees 3,505 surrendered by the Superintending Engineer from the grant for the Cannanore Central Jail only Rupees 1,500 can be made available for transfer, His Excellency the Governor in Council resolves to authorize the appropriation of the latter sum to the Mulki Custom-house, and to direct that the further sum of Rupees 300 required for the custom-house be diverted from the grant for the Jail* at Bellary, on which it has been ascertained that the expenditure up to 30th September 1871 has been only Rupees 940 against an allotment of Rupees 25,000. As funds are urgently required for works of pressing urgency, the Superintending Engineer of the 3rd Division will at once report how much of the grant for the Bellary Jail can be surrendered for re-appropriation, and what is the cause of the small outlay on the building.
