Proceedings of the Madras Government, Public Works Department, 24th November 1871.

No. 448. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Camp at Masulipatam, 7th November 1871, No. 107:—

I HAVE the honour to enclose a form of Note Book which has been printed for some time for use in the Kistna District.

1 Form of pit book.

I found that Range Officers used them in various shapes but only differing slightly, and drew this one up for uniformity.

2. The Range Officers all found that the simple form now sent as an example, approved by Government in Order No. 52, 6th October, was insufficient for the entries of works which were in progress during several years.

No. 449. ORDER THEREON, 24th November 1871, No. 2,981.

ACCOUNT, No. 42.

As the object of Government in circulating the form of Note Book referred to in G. O., No. 52, dated 6th October 1871, was to secure an intelligible and reliable record of measurements taken by Range Officers, and as the form in use in the 2nd Division answers the purpose in view, the Government see no objection to its continued employment.
