RESOLUTION.—The Right Honourable the Secretary of State for India in his despatch No. 405 of the 15th December last, has confirmed the above-mentioned Proceedings of the Government of India in the cases in which charges were sanctioned in anticipation of his approval, and has authorized the increases of salary which were awaiting his approval, with effect from the dates specified in the foregoing recital.

ORDER.—Ordered that a copy of this Resolution, and an extract of paragraph 4 of the despatch of the Secretary of State, be sent to the Public Works Department.

(Signed) R. H. HOLLINGBERY,
Assistant Secretary to the Government of India.

Extract from a Financial Despatch from the Right Honourable the Secretary of State for India, to the Government of India, No. 405, dated 15th December 1870.

PARAGRAPH 4.—I entertain, however, considerable doubt as to the expediency of the new appointment of Consulting Architect to the Government of Madras. I will not disturb the arrangement which you have made as regards the present incumbent; but having regard to the large staff of highly paid engineers now in the employment of Government, I do not consider that the separate appointment of Consulting Architect at Madras is really necessary, and I request that, on the retirement of Mr. Chisholm, the office may be abolished.

COLL. 75.—Mr. Chisholm appointed Consulting Architect to the Government of Madras on a salary of Rupees 1,200 in recognition of his high attainments as an Architect, and his usefulness in preparing and examining designs for all descriptions of buildings in any part of the Presidency. Payment of his salary sanctioned from 1st April 1869, subject to refunds, if disapproved by Secretary of State.

I would not communicate these
papers at present to the Consulting
Architect but address the
Secretary of State stating the
grounds on which a designing
and critical officer is required
in the P. W. whose time is
not absorbed in the performance
of regular departmental
duty and referring to the works,
as an example, in which Mr.
Chisholm has been or is engaged.
The necessity of having such an
officer would be more necessary

still under the proposed reconstitution of the Department which dispenses with the institution of Chief Superintending Engineers

Mr. Court's Consulting Architect was with the proposition to the Chief Architect appointment. He is of opinion that any junior with charge Engineer of works going on should be appointed as a second with such salaries that are not proposed by the Heads of the P.W. Dept. letters in red ink or Circle.

All communications should be addressed to the Secretary.
