Proceedings of the Madras Government, Public Works Department, 19th December 1871.

GROUNDS OF PROPOSITION.

THE building which is at present used as an Armourers' shop at Cannanore is reported to be so unsuited to its purpose as to affect the health of all the men employed there. It is therefore proposed with the sum entered as Item 1 to convert the punishment-shed into a workshop.

2. The work appearing as Item 2 is also much needed.

3. *Item* 3 —This sum is required to complete the new flooring to two of the blocks of the European Barracks at Calicut, and that appearing as Item 4 is needed to admit of operations being resumed, on the termination of the monsoon, with deepening wells in the lines of the Native Infantry Regiment at Cannanore, where the scarcity of water is much felt. With reference to these two works attention is invited to letter No. 2,779, dated 2nd November 1871.

4. The improvements proposed to be carried out with the funds appearing as Item 5 are of a pressing character.

5. The money proposed to be diverted to the works above enumerated are unspent balances of the allotments for Budget Items 14 and 16.

6. As it is unlikely that the grant for the Ulsoor Water Project will be fully spent this year, it is proposed to divert a portion of the amount to the purposes specified against Items 6 and 7, in reference to the latter of which attention is invited to the Proceedings forwarded under docket No. 2,623, dated 14th October 1871, and the reply of the Government of India thereto, No. 407-A.B, dated 7th November 1871.

7. *Item* 8 is urgently required for the repair of the Bezoarah Post Office in the Kistna District.

8. *Item* 9 —The floating plant employed on Agricultural works in the Godavery District is sadly in need of repair, and now that it is of importance that operations should be vigorously prosecuted on the Delta Works, the Superintending Engineer expresses his fears that, unless the boats are maintained in an efficient condition, work will be greatly retarded. It is hoped therefore that the proposal now submitted for the diversion to this object of a sum of Rupees 5,000 from Agricultural Ordinary, which, under the orders of the Government of India has been supplemented by Rupees 13,000 from State outlay in connection with the Madras Irrigation and Canal Company, will receive the sanction of the Government of India.

9. *Item* 10 —As it is of the utmost importance that the Perryaur Project should be pushed on as expeditiously as possible, and as there are no funds available from the Reserve under Agricultural to carry on field work which requires a sum of Rupees 4,500 to complete, sanction is requested to the appropriation of that amount from the loan fund grant for the Pelandorai Project in the South Arcot District (Budget Item No. 38) on which the outlay is expected to fall short of the allotment. The survey establishment employed in connection with the Perryaur investigations has already been authorized to be charged to loan funds, and the project itself will doubtless be classed as an Extraordinary work.

2. I am accordingly to request that the proposal contained in my application of the 12th September 1871, No. 2,320, to provide the money from savings under the Budget allotment for renewing the floors of the European Infantry Barracks at Cannanore may again be laid before the Right Honourable the Governor-General in Council for favourable consideration.

I have the honour to be,
Sir,
Your most obedient servant,

9. Item 10 Should it be determined that the Periyar Project should be launched on an extensive scale, applications will be made for the Revenue available for the Agricultural to carry on the work which requires a sum of Rs 4500 to complete, sanction is requested to the appropriation of this amount from the Loan Fund granted for the Madras Irrigation Co's Act (Act XIX of 1858) on which the outlay is effected to take effect of the allotment. The survey establishment employed in connection with the Periyar irrigation operations are already from authorized to be charged to Loan Funds and the project when will doubtless be carried on an extraordinary work.

budget items 14 & 16.

6. As it is unlikely that the grant for the Akola Water Project will be fully spent this year it is proposed to divert a portion of the amount to the purposes specified against items 6 & 7, in reference to the latter of which, attention is invited to the Proceedings forwarded under docket No 2623 d/ 11th October 1871 and the reply of the Govt of India thereto, No 407 A.B. dated 7th November 1871.
