Proceedings of the Madras Government, Public Works Department, 3rd February 1871.

No. 62. Read the following letter from the Superintendent of Telegraphs, Madras Division, to the Chief Secretary to Government, Fort Saint George, dated Madras, 21st December 1870, No. 1,481:—

REFERRING to the Proceedings of the Government of Madras, No. 75 of the 3rd instant, I have the honour to inform you that the cost of the new Telegraph Line from the Observatory to Fort Saint George was, through an oversight of my predecessor, incorrectly stated.

2. The unexpended balance of Rupees 2,000 is Rupees 589-7-11, as shown in the detailed bill of actual expenditure which accompanies this, and not Rupees 631-7-6 as previously stated.

3. The completion report on the line ought not to have been submitted to Government till after the value of the materials taken from the Madras local Telegraph store-yard had been checked by the Superintendent of Stores at Calcutta.

4. That Officer's valuation statement, as given in the annexure, was only received on the 19th instant, and shows that the stores had been under-charged by Rupees 41-15-7, which sum must therefore now be added to the bill, thus making the total expenditure Rupees 1,410-8-1, instead of Rupees 1,368-8-6.

5. The balance, Rupees 589-7-11, will be paid into the Bank of Madras to the credit of Government.

No. 63. ORDER THEREON, 3rd February 1871, No. 328.

TELEGRAPH, No. 1.

UNDER the explanation afforded by the Superintendent of Telegraphs, Madras Division, in the foregoing letter, the Government accept the revised bill, amounting to Rupees 1,410-8-1, of the cost of the line of telegraph from the Observatory to Fort Saint George, and direct that the balance, namely, Rupees 589-7-11, be paid into the Bank of Madras to be carried to the credit of Government.
