*Proceedings of the Madras Government, Public Works Department,
4th February 1871.*

No. 95. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Mangalore, 10th January 1871, No. 212 :—

I HAVE the honour to request the sanction of Government to the following transfers of funds, namely :—

(5.)	Repairs, Civil Buildings, Coim- batore ...	30		

(1.) This transfer is most urgently required to allow of the early comple-
tion of the masonry of this bridge, but for the entire completion of the work I
find a supplemental estimate will be required, the truss timber having been found
to be so shaken as to render the renewal of nearly the whole of the timber neces-
sary; this estimate will be included in my list of demands on the Reserve of 1871-72.

(2.) By the time the sanction was received it was too late to carry out the
irrigation experiment, except so far as building the cisterns, etc., and obtaining pos-
session of the necessary land in Bhowany and Collegal; the experiments will be
taken in hand next year at the usual planting season. The money available under
this head is required to meet urgent demands under Minor New Works, Agri-
cultural; one, for instance, is for cost of carrying out the survey of Lake St.
Lawrence, as directed in G. O., No. 2,439, of 10th October 1870.

(3.) This transfer is required to meet outlay incurred before stopping works
on the reduction of 6 per cent. having been made from the maintenance grant;
the outlay was reported to this office after the reductions were notified to the
Controller.

Proceedings of the Madras Government, Public Works Department,
4th February 1871.

(4.) The repairs of this bridge were sanctioned last year, but could not be completed from the maintenance grant in consequence of reductions ordered last year and the present. The repairs, however, can no longer be delayed without much inconvenience to the heavy traffic passing over this road.

(5.) Required to meet a demand for house-rent to the Apothecary at Ootacamund.

2. I take this opportunity also to request that a sum of Rupees 417 which is available under that head be transferred from Repairs, Military in the South Canara District to the same head in Malabar, where the amount is much required.
