*Proceedings of the Madras Government, Public Works Department,
14th February 1871.*

No. 319. Read the following letter from the Special Executive Engineer in charge of Wynaad, to the Secretary to Government, Public Works Department, dated Vythery, 7th January 1871, No. 6:—

With reference to G. O., No. 1,585, of 8th December 1870, in the Public Department, I shall be much obliged by being informed whether I may be permitted to proceed with the preparation of materials for the Vythery Dispensary from the private contributions realized, amounting at present to Rupees 3,598-4-0.*

* In all a total subscription of Rs 3,813-12-0.

2. I hope I shall be excused from making this reference in consideration of the very limited period† during which it is possible to prepare materials in this

† From December to April.

district, and that it is not practicable to do so, and complete a building within the same year; so that, unless the present season is taken advantage of, the completion of the Dispensary building cannot be ensured before 1873. Moreover, for the reason that the subscribers to the fund are under the impression that in the Order before referred to the Government intimate an intention of indefinitely postponing the commencement of the work, and are complaining that their subscriptions were given in the expectation that the work would be put in hand at once, I think it right to mention that these subscriptions have been given from a purely charitable motive, to alleviate the very great general distress and sufferings caused by the absence of any institution where the poor may obtain relief, and not with any idea that it is only for the benefit of their own employes; in fact, while soliciting subscriptions (as I have done), I have been very particular in prominently putting this point forward.

3. At the same time that I ask permission to proceed with the work, I would like to be able to re-assure the subscribers as to the certainty of funds in aid being forthcoming to continue the work when the private contributions are expended.

No. 320. ORDER THEREON, 14th February 1871, No. 453.

CIVIL WORKS, No. 24.

RECORDED with reference to the orders of Government in the Public Department, dated 3rd February 1871, No. 149.

The Special Executive

Engineer in charge of

Wynaad

To

The Secretary to Government

P. P. Works.

Madras.

Sir,

With reference to G. O. No. 1585 of 8th December 1870 in the Public Department I shall be much obliged by being informed whether I may be permitted to proceed with the preparation of materials for the

* In all a total Vythery Dispensary from the private subscriptions of contributions realized amounting to Rs. 3813.12. at present to Rs. 3598.14.0.

2. I hope I shall be excused from making this reference in consideration of the very limited period during which it is possible to prepare materials in this District; and that it is not practicable to do so, and complete a Building within the same year, so that, unless the present season

* from December to April.

is taken advantage of, the comple-
tion of the Dispensary building
cannot be entered before 1873:
moreover for the reason that
the subscribers to the fund are
under the impression that in the
Orders before referred to the
Government intimate an intention
of indefinitely postponing the com-
mencement of the work, and
are complaining that their subscrip-
tions were given in the expectation
that the work would be put in
hand at once. I think it right
to mention that these subscriptions
have been given from a purely
charitable intention, to alleviate
the very great general distress
and sufferings caused by the
absence of any institution where
the poor may obtain relief, and
not with any idea that it is only
for the benefit of their own employees;
in fact while soliciting subscrip-
tions (as I have done) I have
been very particular in promi-
nently putting this point forward.

3 At the same time that
I ask permission to proceed with
the work, I would like to be

able

able to reassure the subscribers as
to the certainty of funds in aid
being forthcoming to continue
the work when the private con-
tributions are expended.

I have the honor to be,
Sir,

Your most Obedt Servt.,
