Proceedings of the Madras Government, Public Works Department,
15th February 1871.

No. 342. Read the following letter from the Special Executive Engineer,
Wynaad, to the Secretary to Government, Public Works Department,
dated Vythery, 7th February 1871, No. 59 —

In sending in the Transfer Statements * I did not include the Tambracherry
Ghaut, and road from thence to Mysore
* Dated 6th February 1871.

frontier, reserving it as a case for
special application. I have at present a good gang of workpeople, and could do
much useful work in the next two months but for the shortness of funds, of
which, after deducting a payment now due to the General Superintendent of
Public Works Workshops, there remains only a balance of Rupees 502 for this and
the ensuing month.

2. What makes the want more pressing is that after March the manufacture
of bricks is attended with much risk, and the most important part of the work
remaining to be done is that of constructing culverts and minor bridges; if
therefore a sum of Rupees 5,000 can by any possibility be spared from other
Divisions, the transfer to this work would be attended with great benefit.

CIVIL WORKS, No. 28.

In the present state of the Public
Works grant the Government regret
that they are quite unable to supplement
the current year's assignment for the Tambracherry Ghaut, and road from thence
to the Mysore frontier.

Sir,

4/6 February
1871. —

Depending in the Transfer
Statements I did not include the
Tambracherry Ghaut and Road from
thence to Mysore Frontier, reserving
it as a case for special application.
I have at present a good gang of work-
people, and could do much useful work
in the next two months, but for the short-
ness of Funds, of which after deducting
a payment now due to the General Supe-
rintendent of Public Works Workshops
there remains only a balance of Rs 502
for this, and the ensuing month.
What makes the want more pressing

is that after March the manufacture of Bridges is attended with much risk, and the most important part of the work remaining to be done is of constructing Culverts and minor Bridges; if therefore a sum of Rupees 5000 can by any possibility be spared from other Divisions the transfer to this work would be attended with great benefit.

I have the honor to be
Sir,
Your most obedient Servant

W. B. Hume, Major
Special Executive Engineer
