Chief Engineer

*Proceedings of the Madras Government Public Works Department,
16th February 1871.*

No. 353. Memorandum from the Chief Engineer for Irrigation, to the Secretary to Government, Public Works Department, dated Fort Saint George, 10th February 1871, No. 36.

THE statement of grants and expenditure for Repairs Agricultural for December of the 3rd Division shows that there is not the slightest probability of the allotments being worked out as, out of Rupees 1,30,451 given, Rupees 29,562 only had been expended. I propose therefore to transfer —

10,000 Rupees from Bellary to the Godavery.

15,000 „ „ Cuddapah { 5,000 to Coimbatore.
5,000 „ „ Trichinopoly.
5,000 „ „ North Arcot.

5,000 „ „ Kurnool to Nellore.

Similarly against a grant of Rupees 9,000* for Minor New Works Agricultural,

* Originally 17,000.

less than Rupees 1,000 had been expended. I consider that the Superintending Engineer, 3rd Division, should be called upon for very full explanations of the very small and altogether inadequate expenditure on a class of works on which so much depends. Less has been spent in three large districts than elsewhere is frequently laid out in a single talook or on a single work. It appears to me that whatever difficulties there may be, whether these depend upon the personnel of the division or otherwise, must be overcome, and the Superintending Engineer should understand therefore that in transmitting his explanations he will have to show clearly, not only why the grants have not been utilized, but also how a more satisfactory state of things for the future is to be ensured.

No 354. ORDER THEREON, 16th February 1871, No. 469

ACCOUNT, No 32.

THE transfers of Agricultural Repair Funds recommended by the Chief Engineer for Irrigation are sanctioned.

2. The special attention of the Superintending Engineer of the 3rd Division will be called to the remarks of the Chief Engineer on the small expenditure incurred up to the 31st December on the maintenance of Irrigation works, and he will submit as soon as possible, through that officer, such explanations as he may have to offer, and at the same time he should state how more satisfactory arrangements can be ensured for the future.

(True Extract)

Colonel, R E,

Secretary to Government.

To the Superintending Engineers 1st, 2nd, 3rd, 4th, 6th, and 7th Divisions.

„ Chief Engineer for Irrigation

„ Controller of Public Works Accounts.

No 353.6

Memorandum

The statement of grants & expenditure for repairs Agricultural for December of the 3rd Division shows that there is not the slightest probability of the allotments being worked out as, out of Rupees 130 451 given, Rupees 29 562 only had been expended. I propose therefore to transfer

10,000 Rupees from Bellary to the Godavery.

15,000 „ „ Cuddapah { 5,000 to Coimbatore
5,000 „ „ Trichinopoly
5,000 „ „ North Arcot
5,000 „ „ Kurnool to Nellore

original 17,000

Similarly against a grant of Rupees 9,000 for Minor New Works Agricultural less than Rupees 1,000 has been expended. I consider that the Superintending Engineer 3rd Division should be called upon for very full explanations of the very small and altogether inadequate expenditure on a class of works

works on which so much depends. Less has been
spent in 3 large Districts than elsewhere is fre-
quently laid out in a single Talook or on a single
work. It appears to me that whatever difficulties
there may be, whether these depend upon the per-
sonnel of the Division or otherwise, must be over-
come, & the Superintending Engineer should un-
derstand therefore that in transmitting his ex-
planations he will have to show clearly, not only
why the grants have not been utilized, but also
how a more satisfactory state of things for the fu-
ture is to be ensured.
