*Proceedings of the Madras Government, Public Works Department,
28th February 1871.*

No. 581. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Mangalore, 14th February 1871, No. 232 —

In reply to G. O., No. 147, dated 19th January 1871, I have the honour to report that up to date Rupees 8,933-10-10 have been expended in the collection of the materials noted below for closing the Cruz Milagre Gap, while a further sum of Rupees 1,500 or thereabouts is stated to be still due for materials delivered. Pending further instructions the collection of further materials has been stopped.

2. Though the Malapooram Gap is reported to have closed spontaneously at the end of last year, there are no indications of such being likely to take place with the Cruz Milagre, its present width is somewhat less than it was six months ago, but it is reported to have deepened about one foot.
