*Proceedings of the Madras Government, Public Works Department,
23th February 1871.*

No. 587. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Mangalore, 16th February 1871, No. 235 —

WITH reference to G. O , No. 22, dated 25th January 1871, I have the honour to report that I carefully and closely inspected the Calicut Pier on the morning of the 7th instant, and am of opinion that the contractor has fully acted up to the terms of his contract in the construction of the pier, which, with the exception of the hand-rails to the landing stairs, has been completed

2. Agreeably to the instructions conveyed in paragraph 3 of the G. O. above quoted, I availed myself of the assistance of Captain Gilham, the Master Attendant at Calicut, during my final examination of the work, and that gentleman stated he was perfectly satisfied with the work, the construction of which he noted he had watched from its commencement.

3. Immediately the hand-rails are fitted I will sign the contractor's certificate and direct the Executive Engineer to adjust the contractor's accounts I have further directed the Executive Engineer to hand over the structure, on its entire completion, to the Master Attendant, and to address him as to the necessity of having a good lantern lighted at night on the T head of the pier in order that native craft, which on this coast sail close in land at night, may not accidentally run foul of the pier.
