No. 40. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Camp at Palmanair, 15th February 1871, No 4,615 —

I HAVE the honour to submit, for the consideration and orders of Government, an estimate, amounting to Rupees 500, illustrated by a plan, for constructing two new tannahs on the Trivettore high road, Presidency District, in place of Tannahs Nos 8 and 10, which the Acting Commissioner of Police, in November last, brought to my notice were in such a dilapidated state that the Police could no longer occupy them, and requested that they may be put in order.

2. Captain Hunter found it necessary to demolish No. 8 Tannah, as it was in a dangerous state.

3. No 10 Tannah, like No. 8, is built of mud, and in a state requiring re-construction. The new buildings will be constructed with more durable materials.

4. The plan has been countersigned by Major Bowen in token of his approval.

5. It will rest with the Government to determine from whence the funds required shall be provided.
