*Proceedings of the Madras Government, Public Works Department,
6th March 1871.*

No. 137. Read the following letter from the Officiating Quarter Master General, to the Secretary to Government, Public Works Department, dated Fort Saint George, 23rd February 1871, No. 1,452:—

I HAVE the honour, at the request of the Superintending Engineer, 3rd Division, to forward the accompanying letter, No. 2,356, dated 15th instant, to your address, with plan, report, and estimate, amounting to Rupees 820, for constructing a room for the use of the Serjeant attached to the canteen of the Royal Horse Artillery at Bellary.

2. His Excellency the Commander-in-Chief approves of the plan and estimate for the said work.

From the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, (through the Quarter Master General of the Army, Fort Saint George,) dated Bellary, 15th February 1871, No. 2,356.

I HAVE the honour to forward, for the sanction of Government, the accompanying plan, report, and estimate, amounting to Rupees 820, for constructing a room for use of the Serjeant attached to the canteen of the Royal Horse Artillery at Bellary.

2. The local Military authorities and also His Excellency the Commander-in-Chief having approved of the plan, etc., I directed the work being taken in hand in anticipation of sanction, as the building is proposed to be built contiguous to the dry store-room, which was sanctioned in G. O., No. 2,718, dated 12th November 1870.

3. After deducting all charges for works sanctioned against "Minor New Works, Military," I find that there will remain a balance of Rupees 60 for the Serjeant's room; I therefore propose to utilize this sum towards the work, arrangements having been made to pay for work in excess of this sum from the grant in 1871-72.

4. I trust my proceedings will be approved of.

No. 138. ORDER THEREON, 6th March 1871, No. 660.

MILITARY WORKS, No. 5.

THE Government sanction the estimate of Rupees 820 for the construction of a room for the use of the Serjeant

attached to the canteen of the Royal Horse Artillery at Bellary.

2. It will be pointed out to the Superintending Engineer of the 3rd Division, with reference to paragraph 3 of his letter, that the arrangement which he reports having made to defer payment of work done in one year till the allotments of the following one are available for disbursement is objectionable and opposed to the policy of Government, and Lieutenant-Colonel Moberly will accordingly restrict works within the limits of the funds which he is in a position to appropriate in advance of operations.
