*Proceedings of the Madras Government, Public Works Department,
8th March 1871.*

No. 178. Read the following letter from the Officiating President of the Municipal Commission, to the Secretary to Government, Public Works Department, dated Madras, 28th February 1871, No. 97:—

I HAVE the honour to bring to your notice, in reference to G. O., No. 1,883, dated 8th August 1870, making the services of Soobroyachary available for employment on the distribution works for a further period of six months, that this term will expire on the 8th proximo; but, owing to the non-completion of the delivery channel, his removal just now will greatly inconvenience the Municipality. The works are far advanced, and will probably take only two or three months to finish. The introduction of a new Superintendent at this stage will not only tend to delay the completion, but will also act injuriously to the interest of the Municipality, as the responsibility for the stability of the works will be divided.

2. Under these circumstances, I shall feel obliged if you will be good enough to sanction the retention of his services by the Municipality for a few months longer.

3. I desire to take this opportunity of placing on record the opinion entertained of Soobroyachary by our Executive Engineer, Mr. Standish-Lee, who informs me that he has uniformly given him satisfaction during the year he has served the Municipality, and that by his unremitting attention the works entrusted to him have not only been well executed, but also very economically carried out.

No. 179. ORDER THEREON, 8th March 1871, No. 681.

ESTABLISHMENT, No. 19.

UNDER the circumstances brought to notice in this letter, His Excellency the Governor in Council is pleased to extend for three months the period for which Soobroyachary's services have been placed at the disposal of the Municipal Commissioners of Madras.
