*Proceedings of the Madras Government, Public Works Department,
8th March 1871.*

No. 191. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 20th February 1871, No. 4,657 :—

I HAVE the honour to submit, for the early sanction of Government, an estimate, amounting to Rupees 340, for raising the floors of the two expense magazines on the sea face of Fort Saint George.

2. The floor being low, the water from the ditch on the sea face percolates through and stands on it, thus rendering the magazines damp, in consequence of which they have been pronounced unserviceable.

3. The estimate has been countersigned by the Officer Commanding Centre District, and its amount may be taken from the balance, Rupees 518, available from the grant for Military Minor New Works in the Presidency District.
