*Proceedings of the Madras Government, Public Works Department,
11th March 1871.*

No. 283. Read the following Endorsement of the Acting Consulting Engineer for Railways, dated Madras, 16th February 1871, No. 77 :—

From the Agent and Manager of the Madras Railway Company, to the Acting Consulting Engineer for Railways, dated Madras, 10th February 1871, No. 98.

With reference to Government Order, No. 397, dated the 8th instant, a copy of which was forwarded to me with your endorsement, No. 106, of the 9th idem, I have the honour to inform you that, as the printing and correction of the time tables will occupy at least a fortnight, I would propose that the new service of trains on the North-West Line should commence on the 1st proximo, by which time it is hoped that the line between Veerapoor and Bellary will be ready for traffic.

SUBMITTED to Government.

2. The Agent has informed me that he does not propose to open the line to Bellary on the 20th instant, according to my recommendation, which was approved in G. O., No. 465, of the 15th instant, on the condition that I satisfied myself of certain works being quite completed.

3. The time table for the North-West Line was approved by the Government on the 8th instant, No. 397; but the Agent now shows that the time occupied in printing would keep the time table from being published till near the end of the month; likewise by bringing it out for the 1st proximo, the hours for Bellary will be entered as well, without the necessity of having a second time table printed within a very short time.
