*Proceedings of the Madras Government, Public Works Department,
13th March 1871.*

No. 339. Read the following letter from the Superintending Engineer in temporary charge of 8th Division, to the Chief Engineer for Irrigation, dated Palamcottah, 27th February 1871, No. 3,050:—

SUB-ENGINEER Wiffen has brought to my notice that the ordinary rate of travelling allowance does not cover the expenses of camp life in the part of the district where he is employed. As he is almost constantly in tents his servants require a higher rate of pay than usual, and when in out-of-the-way places or in the jungles he has in addition to give batta, and his tents and camp equipage are subject to more than ordinary wear and tear.

2. The case appears to me to be one for a special rate of travelling allowance, and I beg to recommend that the Sub-Engineer be allowed one-and-a-half times the ordinary rate, or 4½ Rupees per diem; to be raised to 6 Rupees per diem when surveying in the hills above Paupanassum.

No. 340. ORDER THEREON, 13th March 1871, No. 754.

ESTABLISHMENT, No. 29.

THE Government sanction the grant of double travelling allowance to any members of the staff of the Irriga-

tion Range in Tinnevely who may be employed in the hill country west of Paupanassum, during the time that they are so employed; but His Excellency in Council does not consider that the circumstances of the open parts of the Tinnevely District are such as to warrant a departure from the ordinary scale of travelling allowances.

Chief Engineer for Irrigation
Madras

Sir,

Sub Engineer Wiffen has brought to my notice that the ordinary rate of travelling allowance does not cover the expenses of camp life in the part of the District where he is employed. As he is almost constantly in tents his servants require a higher rate of pay than usual and when in out of the way places or in the jungles he has in addition to give batta and his tents and camp equipage are subject to more than ordinary wear and tear.

The case appears to me to be one for a special rate of travelling allowance and I beg to recommend that the Sub Engineer be allowed 1 1/2 times the ordinary rate or 4 1/2 Rupees per diem to be raised to 6 Rupees per diem when surveying in the hills above Paupanasum.
