*Proceedings of the Madras Government, Public Works Department,
14th March 1871.*

No. 349. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 16th February 1871, No. 3,861 :—

ADVERTING to G. O. of the 9th instant, No. 416, I have the honour to request you will be good enough to obtain the sanction of Government to my setting apart Rupees 100 a month, from the allotment for Repairs "Agricultural" in the ensuing official year, for the purpose of preparing surveys, etc., of the tanks in the Ellore Talook.

2. I observe from a statement sent to me by the Collector that, between 60 and 70 per cent. of the ayacut lands under these works are out of cultivation, and it is therefore necessary to investigate each case fully before deciding on the nature of the work to be done.

3. As far as I have been able to observe, the tanks in this talook, as well as in Yernagoodem and Rajahmundry, have never had very much done to them for the last half century, so that it is not to be wondered at if they are out of repair, and the more so as Mr. Andrews points out the villagers are allowed to destroy the bunds as fast as these are repaired.

No. 350. ORDER THEREON, 14th March 1871, No. 759.

IRRIGATION, No. 26.

Proceedings Madras Government, 9th February 1871, No. 416.

THE Government observe from the letter, No. 496, dated 11th February 1870, of the Executive Engineer No. 4 Range, Godavery District, that it would appear that Mr. Andrews prepared detailed estimates for a great many of

the tanks in that Range and, if this be the case, probably there will be no difficulty in laying out advantageously without further investigation, all the money which is likely to be available. At the same time His Excellency the Governor in Council will be prepared to sanction, from the provision for temporary establishments for 1871-72, the salary of a Surveyor and lascars, on the Superintending Engineer submitting a clear statement of the work on which they will be employed, and of the time it will be likely to occupy.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

No 3861 Sub Engineer Office 1st Div
Dorchester 15th February 1871

From Major J. J. Fowler M.E.
Acting Sub Engineer
1st Division

To, Colonel C. A. Cox M.E.
Secretary to Government

Sir, B. P. D. Madras.

Referring to G.O. of the 9th
instant, & to 416, I have the honor to re-
quest, you will be good enough to obtain
the sanction of Government to my setting
a part Rs. 100 a month, from the allotment
for "Depot's Agricultural" in the ensuing
Official Year, for the purpose of preparing
surveys of the tanks in the Udupe Taluk.

2. I observe from a statement
sent to me by the Collector that, between
60 and 70 per cent of the Agency lands
under these works are out of cultivation,
and it is therefore necessary to investigate
each case fully, before deciding on the nature
of the work to be done.

3. As far as I have been able to
observe, the tanks in this Taluk, as well as
in Yernagudem and Rajahmundry have

have never had very much done to them
for the last half century, so that, it is
not to be wondered at if they are out of
repair, and the more so, as Mr. Andrews
points out, the villagers are allowed to
destroy the bunds as fast as these are
repaired.

I have the honor to be
Sir
