*Proceedings of the Madras Government, Public Works Department,
22nd April 1872.*

No. 335. Read the following letter from the Officiating Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Tanjore, 6th April 1872, No. 12:—

WITH reference to G. O., No. 941, dated 30th March 1871, and No. 855, dated 26th March 1872, I have the honour to request sanction for the employment of a Surveyor on 50 Rupees a month and six lascars at 6 Rupees a month for the purpose of surveying and taking up the portion of river margins which it has been decided should remain in possession of this department.

2. The survey which has been called for by the Government of India of the Agunda Cauvery and Coleroon will furnish all the information necessary to enable us to take up the margins on these rivers, and I propose now to employ a Surveyor on the rivers in the delta, commencing systematically at the head, and, having settled the compensation to be paid in communication with the Revenue Department, submitting estimates for sections of the rivers from time to time. It is essential that this work should be put in hand at once, as since last floods a great deal has been done by planting grass towards bringing the rivers at the head of the delta to the proper widths, and as new padugay is formed, the Merassidars are sure to take it up at once and claim compensation.

3. I am unable to say for how long a Surveyor will be required, but the work will certainly take a very long time. I would, in the first instance, request that sanction may be given to his employment for one year. and at the expiration of that time I shall see what progress has been made and be able to state for what further period he will be required.

No. 336. ORDER THEREON, 22nd April 1872, No. 1,040.

ESTABLISHMENT, No. 27.
