Government of Madras.

Public Works DEPARTMENT.

G.O. No.	Press
425	Mis.
Dated	18 . . .

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
4th May 1872.*

No. 74. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 19th April 1872, No. 269 :—

I HAVE the honour to enclose herewith, for orders of Government, an indent in duplicate for iron required from England, received from the Officer in charge of the Government Workshop, Dowlaishweram, together with copy of his letter which accompanied the same; and as that officer states that Calcutta rates of iron are dearer than those of the home supply, I request that the General Superintendent of Public Works Stores may be permitted to obtain the indented iron for the Dowlaishweram Workshop from England *to be landed at Cocanada.*

No. 75. ORDER THEREON, 4th May 1872, No. 1,147.

ACCOUNT, No. 6.

THE General Superintendent of Public Works Stores will include this iron in his next annual indent for the

Presidency, distinctly noting therein that it should be landed at *Cocanada.*

2. The Executive Engineer in charge of the Dowlaishweram Workshop should be called on to specify particularly the description of iron of useful sizes of which the supply is now short and which has to be procured from Calcutta at very high rates.

(True Extract.)

Colonel, R.E.,
Officiating Secretary to Government.

To the General Superintendent of Public Works Stores, with Indent.
,, Acting Superintending Engineer, 1st Division.

N^o 10
12th April 1872.

From The Executive Engineer G. D.

In Charge Government Workshop
Dowlaisham

To The Superintending Engineer
1st Division
Dowlaisham

Sir, I have the honor to forward an
Indent, for 105 Tons of iron that I re-
quest you will should get approval of it.
and to Madras and procure sanction for
it to be sent from England.

The stock of iron in the Workshop is
now 537.126 lbs or about 250 tons standing
in the works. At 32s/6 or about Rs. 130 a ton.

Last year in 1871 there was 737528 lbs
or about 330 tons to the value of Rs. 44268

I therefore think we may safely increase the stock by this 100 tons the estimated cost of which is about 15,000 Rupees.

We require this iron as soon as possible and we are now very short of many

of the useful sizes and have consequently constantly to send for iron to Calcutta, the cost of this is much more than that we receive from England.

I have &c

Respectfully M. P. Mead Capt. R.E.

MADRAS

SIR,

I have the honor to enclose herewith for order of Government, an extract in duplicate for iron required from England, received from the Officer in Charge of the Government Workshop, Dowlaishwarum, together with copy of his letter which accompanied the same, and as that Officer states that Calcutta rates of iron are cheaper than those of the Home supply, I request that the General Superintendent of P.W. Stores may be permitted to obtain the indented iron for the Dowlaishwarum Workshop from England to be landed at Coimbatore.

I have the honor to be
Sir,
Your most obedt. servant

Respectfully
J. Fischer Lieut. Col. R.E.
Asst. Super. Engineer 1st Division
