No. 84. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Fort St. George, 19th April 1872, No. 188 :—

In continuation of my letter No. 3,075, dated 15th March 1872, I have the honour to submit a statement of items of unauthorized outlay for the month of January 1872.

2. The whole of these items have already appeared in my statement for January 1872, and, in noticing them *serialim*, I beg to state, with regard to the first item, that the estimate for the work will, as intimated by the Superintending Engineer, be shortly submitted to Government. Item No. 2 represents expenditure on a Famine Relief Work, and requires an estimate in addition to an allotment. Government in their Order No. 266, dated 10th February 1872, Revenue Department, have ruled that the special grants for relief works will be provided from general funds, and that the question of ultimate adjustment will be divided hereafter.

3. The outlay recorded against Items Nos. 3 and 4 exceeds the modified allotment in each case by above the prescribed limitation of Rupees 500. The Superintending Engineer states that application was made to the Local Fund Board for additional grants for these roads, and that as they have not been made available, the matter has been reported to Government. The original assignments were Rupees 15,410 and 13,740, which were reduced to the sums noted in the statement in the revised Budget issued in February last.

4. With respect to Item 5, I have no explanation to offer beyond that embodied in my statement for January, and which is entered below for ready reference :—

“ The original maintenance grant of Rupees 1,000 for this road having been reduced to Rupees 500 in Revenue Board's Proceedings, No. 1,120, dated 13th February 1872, the Superintending Engineer was requested to apply to the Local Fund Board for a supplemental grant to cover the excess outlay. The Superintending Engineer has replied that the Proceedings quoted have been received neither in his office nor in that of the Executive Engineer. The matter has since been brought to the Board of Revenue.”

5. The expenditure on the work shown as Item No. 6 exceeds the estimate by more than 5 per cent. The Superintending Engineer states that a revised estimate and report have been submitted to Government.
