*Proceedings of the Madras Government, Public Works Department,
31st May 1872.*

No. 506.

Read the following paper :—
No. 245.

APPLICATION from the Agent and Manager of the Madras Railway Company, requesting the sanction of Government to the following estimate :—

Estimate of the cost of alterations and additions to the
permanent way at the New Central Station Rs. 10,424

2. In forwarding the estimate the Agent has sent the following explanation :—

“ Mr. Church proposes four improvements which are shown in yellow on the plan, namely, (1) lengthening one of the main line sidings; (2) additional blind siding near horse platform; (3) extra cross-over road; (4) two Dunn's traversers.

“ The siding on the east side of the station requires to be lengthened and connected by a cross-over road with the second line, as shown on the plan in yellow, to admit of the engine of a train coming into the station to get in rear of the carriages for purposes of shunting.

“ The traversers at the end of, and between, the platforms are a substitute for points and crossings, and are required to move carriages from one line of rails to the other at the minimum of labour.

“ The lay-bye on the west side of the station is required for standing spare horse-boxes and carriage trucks.”

3. I recommend that the estimate be submitted for the sanction of the Government of India.

4. Funds are available from item 1, “ Madras Central Station,” in Schedule A. of the Budget estimate for 1872-73.

(Signed) J. H. M. SHAW-STEWART, Lieut.-Colonel, R.E.,
Consulting Engineer for Railways.
