No. 80. Endorsement of the Military Department, dated Fort St. George, 22nd May 1872.

From the Quarter Master General, to the Secretary to Government, Military Department, dated Fort St. George, 21st May 1872, No. 4,203.

WITH reference to Order of Government No. 744 of 15th March 1872, Public Works Department, I have the honour, by desire of His Excellency the Commander-in-Chief, to report that the Inspectors-General of the British and Indian Services and I have been in personal communication with the Railway authorities regarding the invalid carriage proposed for adoption on the Madras line of Railway, and that as the carriage used on the East Indian Railway is not suitable for this line, a modified plan to contain ten berths instead of twelve, with accommodation for latrines and attendants, has been approved of for adoption.

2. The plan will be duly submitted to Government by the Consulting Engineer for Railways, and as it is most desirable that both the carriages authorized in the Order of Government above quoted should be ready for use by the end of the year, I am instructed to request that Government will authorize their construction to be taken in hand immediately.

TRANSFERRED to the Public Works Department.

(Signed) A. C. SILVER, Colonel,
Officiating Secretary to Government.

No. 81. From the Consulting Engineer for Railways, to the Secretary to Government, Public Works Department, dated Madras, 24th May 1872, No. 256.

AGREEABLY to the instructions conveyed to me in the Order of Government dated the 15th March 1872, No. 744, the plans of invalid carriages in use on the East Indian Railway, which accompanied the Order of Government, dated the 22nd ultimo, No. 1,037, were forwarded to the Agent of the Madras Railway with a request that an estimate of the cost might be prepared for submission to Government.

2. On the 16th instant a meeting attended by the officers named in the margin was held in the Quarter Master General's Office, at which the Locomotive Superintendent of the Madras Railway pointed out that the plan of invalid carriage in use on the East Indian Railway could not, without modification, be introduced on to the Madras Railway, inasmuch as the wheel-base shown on the plan was too great to allow of vehicles built in strict accordance with it being turned on the carriage turn-tables of the Madras Railway. Mr. Barton Wright showed that, under the circumstances, in order to preserve the full number (twelve) of berths provided in the plan, it would be necessary to curtail somewhat the space allotted to each man. The only other

Inspector-General, British Medical Service.
Quarter Master General of the Army.
Agent and Manager, Madras Railway Company.
Locomotive Superintendent, do.
Consulting Engineer for Railways.

available course was to reduce the number of berths from twelve to ten, and to arrange two of them at right angles to the direction of the train.

3. It was unanimously resolved to recommend the adoption of the latter alternative; and I have now the honour to submit a letter* from the Agent of the Madras Railway forwarding a drawing of an invalid carriage, the arrangement of which has been approved of by the Quarter Master General and by the Inspectors-General of the British and Indian Medical Services. An estimate showing the cost of constructing two such carriages, and amounting to Rupees 9,740, accompanied the drawing, and is now submitted for sanction.

* No. 330, dated 21st May 1872, with enclosure.

4. Although two invalid carriages are required, the Military authorities wish that one only should be built in the first instance, the second not to be put in hand until the first has been completed and inspected.

5. His Excellency the Governor in Council has been pleased to express his willingness to recommend to the Government of India that the cost of these carriages should be debited to Capital; and as the Military authorities are anxious that the first vehicle should be constructed without delay, so as to allow of the two being completed before the next season for sending invalids to England, I beg to suggest that early sanction be solicited.

G. O., No. 744, dated 15th March 1872.

6. The budget estimate for 1872-73 contains no provision to meet this outlay; but the estimated expenditure may, for the present, be made available from Item 28 in Schedule B., Engineering Department.

From the Agent and Manager of the Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 21st May 1872, No. 330.

With reference to the Orders of Government noted in the margin, I have the honour to forward herewith a copy of the Locomotive Superintendent's letter No. 188, dated the 18th instant, together with the drawing* and estimate† therein referred to of two invalid carriages.

No. 744, 15th March 1872.
„ 1,037, 22nd April 1872.

* No. C. 26.
† Rupees 9,740.

2. I will forward, as soon as received, the longitudinal and cross sections promised by Mr. Wright; but, as the Military authorities are anxious that one of the carriages should be put in hand at once, I lose no time in submitting the estimate for the sanction of Government, and I request that I may be favoured with instructions as to the allocation of the expenditure, no provision for it having, as you know, been made in the budget.

From the Locomotive Superintendent, to the Agent and Manager of the Madras Railway Company, dated Perambore Works, 18th May 1872, No. 188.

With reference to the Proceedings of Government, No. 744, dated 15th March 1872, and No. 1,037, dated 22nd April 1872, and to the meeting held at the Quarter Master General's Office on the 16th instant, to take into consideration the subject of the construction of the proposed invalid carriages referred to in the above-quoted Proceedings of the Madras Government, I beg to inform you that in accordance with the arrangement then made the Quarter Master General of the Army, accompanied by the Inspector-General of the British Medical Service, and the Inspector-General of the Indian Medical Department, visited these works this morning, and inspected the various descriptions of carriages, with the view of arriving at the most suitable arrangement for the details of the proposed vehicle.

Proceedings of the Madras Government, Public Works Department, 7th June 1872.

2. After considering the plans of this description of carriage awarded by the Government of India and the modified plan which I had prepared, it was decided to adopt the latter.

3. The Quarter Master General informs me that two such vehicles are required, but that he would wish one only to be built at first, the second to be constructed after an inspection of the first.

4. The Military authorities are anxious that this first carriage should be put in hand at once, so as to allow of both vehicles being completed before the next season for shipping invalids, and I therefore lose no time in sending you an estimate and tracing of plan (C. 26) of carriage for final approval and for the necessary Government sanction.

5. I will prepare and submit as soon as possible longitudinal and cross sections showing details, but the matter being pressing it is probable that the Government will be pleased to allow the work to be at once commenced without requiring in the meantime any detail beyond what is shown in the skeleton plan herewith sent.

6. The estimated cost of the two carriages is Rupees 9,740.

7. As you are no doubt aware there is no provision in the budget for this expenditure, but, being exceptional, I presume that the Government will direct us as to the mode of dealing therewith.

No. 82. Memorandum from the Consulting Engineer for Railways, to the Secretary to Government, Public Works Department, dated Madras, 5th June 1872, No. 279.

Drawings showing the elevation and sections of the invalid carriages recommended for adoption on the Madras Railway, and approved of by the Quarter Master General, are submitted to Government with reference to my letter No. 256, dated 24th May 1872.

No. 83. Order thereon, 7th June 1872, No. 1,407.

RAILWAY, No. 11.

Ordered that the plan and estimate of Rupees 9,740 for the construction of two invalid carriages for use on the Madras Railway be forwarded for the sanction of the Government of India.

PUBLIC WORKS DEPARTMENT,
FORT ST. GEORGE, *7th June* 1872.

No. 84.

No. 1,408.

To

THE SECRETARY TO THE GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

RAILWAY, No. 12.

SIR,—I am directed to submit, for the sanction of the Government of India, the accompanying plan and estimate of Rupees 9,740 for the construction of two carriages designed for the conveyance of sick troops over the Madras Railway.

2. It will be observed from the enclosed correspondence that certain alterations in the pattern plan transmitted with your letter No. 490 G.—R., dated 2nd April 1872, involving a reduction of the number of berths from twelve to ten, two being placed transversely, were found to be necessary in order to adapt the vehicles to the turn-tables in use on the Madras line. The modified plan has been approved by the Military authorities, who wish that one carriage may be first constructed for trial; and as it is of importance that both carriages should be ready by the end of the year for the transport of invalids who may then be expected to be forwarded for embarkation to England, I am to request that early sanction may be communicated to the estimate. Funds for the work will be provided from item 28 in Schedule B. of the Budget.

I have the honour to be,
Sir,
Your most obedient servant,

Colonel, R.E.,
Secretary to Government.

Allahabad Railway Company
Agra. Superintendent, Office
Rewaree, March 18th 1872.

To

The Agent and Manager,

Dear Sir,

With reference to the Proceedings of Government No 744 dated 28th March 1872, and No. 1037 dated 22 April 1872, and to the meeting held at the Director General's Office on the 15th instant to take into consideration the subject of the construction of the proposed Carriages for the conveyance of the Invalid Troops from the Railway - quoted Proceedings of the Madras Government, I beg to inform you that in accordance with the arrangement then made, the Director General of the Army Department by the Inspector General Indian Marine, and the Superintendent Indian Railways, I visited the Works this morning and examined the various descriptions of Carriages with the view of deciding which was most suitable and convenient for the daily use of the proposed Invalids.

After considering the Plans of the descriptions of carriages forwarded by the Government of India and the modified Plan which I had prepared, it was decided to adopt the latter.

The Director General will observe that two kinds vehicles are required, but that the model which I have built at Jhansi, the General Manager of the Railway has kindly lent to the Committee, is one intermediate between the two, and will answer the purpose of both.

I have the honor to be Sir,

AGENT AND MANAGER'S OFFICE.

Madras, 21th May 1872.

From

Robert A. Elwin Esqre

Agent and Manager. M. R. Co.

To

Lt Col. J. Hell. Shaw Stewart, R.E.

Consulting Engineer for Railways.

Sir,

With reference to the Orders of Government noted in the margin, I have the honour to forward herewith a copy of the Locomotive Superintendent's letter No. 188 dated the 18th instant together with the Drawing and Estimate therein referred to of two Invalid Carriages.

744 - 15 March 1872.
937 - 25 April "

*C. 26.
Rs. 9,740.

2. I will forward as soon as I received the longitudinal and cross sections promised by Mr. Wright, but as the Military Authorities are anxious that one of the Carriages should be put in hand at once I have no time in submitting the Estimate for the sanction of Government, and I request that I may be favoured with instructions as to the allocation of the expenditure, no provision for it having as you know been made in the Budget.

I have the honour to be,
Sir,
Your most Obedient Servant,

Agent and Manager.

The Military Authorities are anxious that this first Carriage should be put in hand at once so as to allow of both Vehicles being completed before the next season for shifting Invalids, and I therefore lose no time in sending you an Estimate and Drawing of Plan of Carriage for final approval and for the necessary Government sanction. *C. 26.

I will prepare and submit as soon as possible longitudinal and cross sections shewing details, but the matter being pressing it is probable that the Government will be pleased to allow the work to be at once commenced, without requiring in the meantime any detail beyond what is shown in the skeleton Plan herewith sent.

The estimated cost of the two Carriages is Rs. 9,740.0.0.

As you are no doubt aware there is no provision in the Budget for this expenditure, but being exceptional, I presume that the Government will direct us as to the mode of dealing therewith.

Yours faithfully
Hon. W. Barton Wright
