*Proceedings of the Madras Government, Public Works Department,
14th June 1872.*

No. 235. Read the following letter from the Officiating Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Camp at Kaulripad, 20th May 1872, No. 29 :—

I HAVE the honour to inform you, with reference to your memorandum No. 66 of 8th instant, that the Nizampatam side channels were completed, in 1870-71, according to the arrangements originally proposed; but Colonel Moberly considered some additions desirable, and intended spending the saving (Rupees 3,540) in excavating a branch channel and in constructing some minor regulating works, which appear to be necessary, although not provided for in the sanctioned estimate.

2. In the statement of works estimated to cost more than Rupees 20,000, the remark should have been completed with the exception of a branch channel and a few minor regulating works.

No. 236. ORDER THEREON, 14th June 1872, No. 1,476.

IRRIGATION, No. 10.

As it appears that the Nizampatam side channels were completed in 1870-71 according to the provision of the original estimate, the balance of the estimate cannot now be expended in excavating a branch channel and in constructing certain regulating works now said to be required. The latter should be provided for from the allotment for Minor New Works on estimates passed by the Superintending Engineer if within the limit of his sanction, and if beyond that limit the estimates should be submitted to Government.

2. The estimate for the branch channel, accompanied by a sketch and a report relative to its necessity, should be submitted for the sanction of Government through the Acting Chief Engineer for Irrigation.

(True Extract.)

Captain, R.E.,
Acting Joint Secretary to Government.

To the Officiating Superintending Engineer, 2nd Division.
,, Acting Chief Engineer for Irrigation.

Madras
Sir,

I have the honor to
inform you, with reference to
your Memorandum No 66 of 8th
instant, that the Nizampatnam
Side Channels were completed,
in 1870/71, according to the
arrangement originally proposed,
but Colonel Moherly considered
some additions desirable and
intended spending the saving
(Rs 3540) in excavating a Branch
Channel and in constructing
some minor regulating works,
which appear to be necessary,
although not provided for
in the sanctioned Estimate

2 In the Statement of works
estimated to cost more than
Rs 20000, the remark should
have been - Completed with
the exception of a branch
channel and a few minor
