*Proceedings of the Madras Government, Financial Department,

Read again Proceedings of Government, Financial Department, dated 27th March 1872, No. 383.

No. 253. ORDER THEREON, 20th April 1872, No. 547.

The Government in the above Proceedings sanctioned the plans and estimates for certain road-works in the Rajahmundry Local Fund Circle in regard to which the Superintending Engineer had remarked that Rupees 7,904 had to be contributed from Provincial Funds by Government towards the expense of bridging irrigation channels which intersect the line. The Board of Revenue observe on this point that, under present arrangements, no contribution can be claimed from Provincial Funds, and so far they are right; but the Government are of opinion that in this, and in all similar cases, a contribution is fairly due from Imperial Agricultural Funds to cover the additional expenditure involved in the execution of road-works from Local Funds, by the necessity of bridging irrigation channels and canals which have been carried across pre-existing lines of communication.

2. It will be considered in the Department of Public Works, whether in the present instance any, and what, contribution is due to the Local Fund on the above principle, and orders will be issued accordingly for its disbursement from the ordinary Agricultural grant.
