W. W. Knight

Municipal Commissioners' Office.

Madras, 5th June 1872

To
Lieut. Col. J. St. Walker R.E.
Off. Secy to Govt. D. I. W.
Madras

Sir,
I have the honor to forward for
your consideration, Plan and sections
showing the proposed method of taking
across the Elephant Gate Bridge one
of our Water Mains.

2. The alignment of the pipes will
be parallel to the face walls of the lower
or land Arches, and will be well raised
above them so as not to require any cutting
into the Brickwork. The breadth
of roadway over the Centre Arch is
18 ft., while the remainder of the
Bridge is on the average 25 ft., and
it is proposed to take advantage
of this circumstance and run the
pipe next to the inner face wall
of the Bridge at both ends, and
support it on screw piles over the
span of the Centre arch.

3. To carry out this plan, per-
-mission is required for breaking
through

through a little brickwork at B.H.C.
for passing the pipes through them,
and I shall feel much obliged by
your sanctioning this arrangement,
as I am most anxious not to lose
a day, if possible, before taking
the water into Black Lion.

4. The details of the Sewer
pipes ~~are~~ are not shown in the plan, as it
has been prepared hurriedly, so that
it might be submitted to you be-
fore your departure for Botetown.

Yours truly
Sir,

Your most Obedt^t Servant

Wm. Pittard
Off^r President
Thimble Lane
