*Proceedings of the Madras Government, Public Works Department,

No. 82. Read the following Endorsement of the Consulting Engineer for Railways, dated Madras, 8th June 1872, No. 292 :—

From the Agent and Manager, Carnatic Railway Company, to the Consulting Engineer for Railways, dated Madras, 27th May 1872, No. 436.

I HAVE the honour to report that on the morning of the 19th instant a large stone was placed on the line on a sharp curve close to the 5th mile post; the engine of the 6-30 A. M. train from Conjeveram of that date struck the stone and sustained some slight damage to the life-guard and break-spindle, but the stone being displaced, no further consequences ensued. Major Cunliffe, Superintendent of Police, happened to be in the train, and at once directed inquiries to be instituted by the officers of that department; but, as the culprit has not up to this time been detected, it has been suggested that a small reward should be offered for his apprehension and conviction. The views of the Government are solicited as to the desirability of adopting this course, and, if approved, I shall feel obliged by your stating what amount of reward will be deemed suitable in the circumstances.

SUBMITTED for the information of Government.

(Signed) J. H. M. SHAW-STEWART, Lieut.-Col., R.E.,
Consulting Engineer for Railways.
