No. 84. Read the following letter from the Deputy Consulting Engineer for Railways, to the Secretary to Government, Public Works Department, dated Madras, 19th June 1872, No. 311:—

I HAVE the honour to submit, for the sanction of the Government of India, the accompanying indent* (in duplicate) on the Board of Directors of the Madras Railway Company for machinery and stores required for the Locomotive Department, the approximate cost being Rupees 1,29,100.

* No. 79, dated 10th June 1872.

2. In applying for the articles, the Locomotive Superintendent writes as follows:—

"The 500 bars of round iron for making centre chains I have specified to be of 1¼″ instead of 1⅛″ diameter, the size that has hitherto been used, as I find that, in the interchange of our waggons with those of the Great Indian Peninsula Company, our centre chains are frequently broken in consequence of the chains used by that Company being of a larger size.

"With reference to your endorsement of the 13th ultimo on the Order of Government No. 1,186, dated 8th May 1872, I beg to state that I have looked through the list of surplus stores which accompanied that Order, and I do not see that any of the articles I have indented for are included in this or any of the lists of surplus stores in my possession."

No. 85. ORDER THEREON, 4th July 1872, No. 1,612.

RAILWAY, No. 20.

ORDERED that the indent received with this letter be forwarded for the sanction of the Government of India.
