*Proceedings of the Madras Government, Public Works Department,
5th July 1872.*

No. 120. Read the following letter from the Superintending Engineer, 8th Division, to the Secretary to Government, Public Works Department, dated Madura, 17th June 1872, No. 1,168:—

I HAVE the honour to submit, herewith, for early sanction, a supplemental statement of Rupees 384, showing the establishment required for two months for completing the survey of the irrigation channels from the Tambrapoorney river in the Tinnevelly District in addition to the sum of Rupees 696 sanctioned in G. O., No. 1,279, dated 14th May 1872.

2. Executive Engineer Mr. Rundall reports that the Surveyor has completed the levels and cross sections with check levels of the Codagan, Tinnevelly, and Malacal channels, and is now working on the Pauliem channel, which is nearly finished. There remain therefore the Murdoor Kilakal and the Nathiunny channels alone of the Tambrapoorney channels to be levelled, and if this Surveyor is removed before the completion of these channels levels, it is doubtful when we shall be able to get them done.

3. Considering that it would be a great pity to lose the Surveyor Chinniah Pillay before his work is thoroughly completed, the more especially as he is now acquainted with the work which is wanted, and considering also that the work, if left in its present unfinished state, is a direct loss to Government, I have, in anticipation of their sanction, authorized Mr. Rundall to retain the Surveyor for a further period of two months, which I trust will meet with the approval of Government.

1 Statement

Sir, I have the honor to submit herewith, for early sanction, a supplemental Statement of Rupees 384.75 showing the establishment required for two months for completing the Survey of the irrigation channels from the Tambapattany river in the Tinnevely District, in addition to the sum of Rupees 696. sanctioned in G.O. No. 1279, dated 14 May 1872. —

2. Executive Engineer Mr. Rindall reports that the Surveyor has completed the levels and Cross Sections with the Check levels of the Codagan, Vinnevelly, and Malakal Channels, and is now working on the Paulam Channel which is nearly finished. There remain therefore the Mirdoor Malakal and the Nathunny Channels above of the Tambapoomy Channel to be levelled, and if this Surveyor is removed before the completion of these Channels, it is doubtful when we shall be able to get them done.

3. Considering that it would be a great pity to lose the Surveyor Chinniah Pillay before his work is thoroughly

thoroughly completed, the more especially as he is now acquainted with the work which is wanted; and considering also that the work if left in its present unfinished state is a direct loss to Government, I have in anticipation of their sanction, authorized Mr. Rindall to retain the Surveyor for a further period of two months, which I trust will meet with the approval of Government.

I have the honor to be,
Sir,
