Dated	6-11-18	12

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
6th July 1872.*

Read the following papers:—

No. 144. From the Superintending Engineer, 4th Division, to the Chief Engineer for Irrigation, dated Madras, 4th June 1872, No. 1,020:—

ADVERTING to paragraph 2 of G. O., No. 2,676, dated 21st October 1871, I

1 Plan.
1 Estimate.

have the honour to submit, for the sanction of Government, a plan and an estimate, amounting to Rupees 2,000,

for a bungalow and out-houses proposed to be constructed for inspection purposes at the Red Hills.

2. The estimate includes the value of the site. The wood-work taken from the dismantled buildings is to be used.

No. 105.

No. 144A. *Note by the Acting Chief Engineer for Irrigation.*

THE Superintending Engineer submits a plan and estimate of Rupees 2,000 for a bungalow and out-houses at the Red Hill Tank for the accommodation of Inspecting and Executive Officers, as directed in G. O., No. 2,676, dated 21st October 1871.

2. The out-houses, as provided by the Executive Engineer, consisted of a coach-house and stalls for three horses, with four narrow rooms only five feet broad in rear, running along the whole length of the building. The plan has been modified, the narrow rooms and the coach-house being done away with and the latter being divided into two rooms, thus providing a kitchen and a godown.

3. It is proposed to make use of such of the old materials as may be suitable, and which are available from the buildings dismantled in the bed of the tank; hence the small amount of the estimate, which, owing to the alterations adverted to in the last paragraph, is reduced to Rupees 1,910.

4. Up to date Rupees 1,382-0-6 appear to have been realized by the sale of building materials and trees in the bed of the new tank.

FORT ST. GEORGE,
15th June 1872.

(Signed) R. F. OAKES, Captain, R.E.,
Acting Chief Engineer for Irrigation.

No. 145. ORDER THEREON, 6th July 1872, No. 1,641.

IRRIGATION, No. 7.

THE Government sanction the revised plan with estimate, amounting to Rupees 1,910, for the construction of an inspection bungalow at the Red Hill Tank, and direct that, under the orders marginally noted, the cost of the work, which will involve a per-centage of excess within the competence of the Superintending Engineer to incur, be debited to the current year's grant for the Madras Water Supply Project.
