*Proceedings of the Madras Government, Public Works Department,
20th July 1872.*

No. 314. Read the following letter from the Superintending Engineer, 5th Division, to the Acting Joint Secretary to Government, Public Works Department, dated Vanamadavy, 22nd June 1872, No. 72.—

With reference to G O, No. 1,459, of the 13th June 1872, I have the honour to state that the Executive Engineer, Salem Range, applied to the late Acting Superintending Engineer in his letter No. 1,416, dated 8th March 1872, for supplemental letters of credit to the amount of Rupees 7,114* for certain emergent works. The letters of credit were issued to him on the 13th March,

but by an oversight in this office an application for funds to cover these credits was not made immediately to the Controller of Public Works Accounts. The consequence is that none of these credits were passed by the Treasury.

2. Had the Range Officer applied for the additional credit in his usual estimate of funds, I presume that the application to the Controller would not have been overlooked.
