Public works DEPARTMENT.

G.O. No.	1747	Press
342-343		Mis.
Dated	23-7.	1872.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
23rd July 1872.*

No. 352 Read the following endorsement of the Acting Chief Engineer for Irrigation, dated Ootacamund, 2nd July 1872, No. 20 :—

From the Agent and Manager of the Madras Irrigation and Canal Company, to the Acting Chief Engineer for Irrigation and Joint Secretary to Government, dated Madras, 12th June 1872, No. 145.

I HAVE the honour to forward, with reference to your letter of the 20th ultimo, No. 23, an estimate in accordance with G. O. No. 2,185 of 25th August 1871, for repairs required to the Jupaud bungalow, amounting to Rupees 1,000, together with copy of Mr. Browning's letter No. 370 of the 5th instant, and to solicit sanction for the expenditure.

From the Acting Chief Engineer, to the Agent and Manager of the Madras Irrigation and Canal Company, dated Kurnool, 5th June 1872, No. 370.

Your No. 243 of 21st ultimo.

I HAVE the honour to forward an estimate in accordance with G O No 2,185 of 25th August 1871, for repairs required at Jupaud bungalow

2. At present I have no other estimates for repairing the bungalows ready for submission, and under these circumstances think it unnecessary to delay repairs which are required for others less urgently needed

3. One of the most important duties of the Assistant Conservancy Engineer in charge of the lower part of the upper sections always will be the regulation of water for the safety of the canal, and a glance at the sketch map sent with the calingulah scheme, sanctioned in G O No 937 of 9th April last, will show in what an important position Jupaud bungalow is placed just below the great tanks and at an easy distance above the emptying sluice at Bowanassy.

4 It is also favourably placed for the officer in charge of Irrigation.

5 There is another great advantage in Jupaud bungalow for a station, namely, it is upon a good Government road which renders access from Kurnool easy, and it is also a Telegraph Station to which the line is easily kept in repairs, and the bungalow is well built with stone-in-chunam, and will therefore be more permanent than most of the Company's bungalows.

SUBMITTED to Government with reference to their Order No. 2,185, 25th August 1871.

2. The bungalow in question is one of those which it is intended to retain permanently, and for the thorough repair of which the Government were pleased to approve the submission of estimates.

(Signed) C. J. SMITH, Captain, R.E.,
for Acting Chief Engineer for Irrigation.

No. 353. ORDER THEREON, 23rd July 1872, No. 1,747.

IRRIGATION, No. 15.

THE estimate for the repair of the Jupaud bungalow, amounting to Rupees 1,000, is sanctioned as a charge against Capital.

Kurnool 5th June 1872

To,

J. H. Henslow Esq^r.

Agent and Manager

Madras.

Sir,

Your No. 243 of 21st ultimo.

I have the honor to forward an estimate in accordance with G.O. No. 2185 of 25th August 1871 for repairs required at Jup and Bungalow.

At present I have no other estimates for repairing the Bungalows ready for submission and under these circumstances think it unnecessary to delay repairs which are required for others less urgently needed.

One of the most important duties of the Assistant Conservancy Engineer in charge of the lower part of the upper sections always will be the regulation of water for the s. s. of the Canal, and a glance at the sketch map sent with the Calingulah Scheme sanctioned in G.O. No. 937 of 9th April last will show in what an important position Jup and Bungalow is placed just below the great tanks and at an easy distance above the emptying Sluice at Bowanasoy.

It is also favorably placed for the Officer in charge of irrigation.

There

N^o 20.

Letter No 145 dated 12th June 1872 from the Agent
& Manager of the Madras Irrigation & Canal Company

Submitted to Government with

reference to their Order No 2185-25th August 1871

The bungalows in question are one of those,
which it is intended to retain permanently
and for the thorough repair of which the
Government were pleased to approve the sub-
mission of estimates.

Obtained by *C. Smith* Captain
