Letter from the Government of Madras, No 1,382, dated 4th May 1872

RESOLUTION—The Budget-estimate of the Madras Irrigation and Canal Company for 1872-73 showed a deficit under Revenue of Rupees 50,305 7-3, thus —

Gross Earnings up to end of 1872-73	RS	A	P
	86,863	7	11
Working Expenses	1,37,168	15	2
	Deficit	50,305	7 3

and in passing orders on the Madras Imperial Irrigation Budget-estimate for 1872-73, it was said. "There are no additional funds available to meet this deficit, and the Government of Madras must, therefore, arrange to provide for it out of the Ordinary Agricultural grant" But it was at the same time observed that as an additional allotment of 3½ lakhs had been assigned to Madras under Ordinary, there would probably be no difficulty in carrying out the above order.

2 The Government of Madras, however, in the letter now read, send up representations with which the Government of India in this department are disposed to agree against the whole of this demand being thrown on the Budget grant of that Presidency. The final decision as to the manner in which the deficit is to be met has, however, been referred to Her Majesty's Secretary of State for India, and therefore no precise orders on the matter can be issued until His Grace's reply has been received, but in the meantime it is suggested, for consideration in the Financial Department, that the Government of Madras be informed that if it is finally decided to meet the charge from the ordinary grant for Agricultural works, the Government of India will be prepared to make an additional allotment for the purpose later in the year on its being shown that such will be necessary.

ORDER—Ordered that the foregoing, together with a copy of the letter* from the Government of Madras, be forwarded to the Financial Department for consideration and orders.

* No 1,382, dated 4th June 1872

Ordered also that a copy be forwarded to the Government of Madras in the Public Works Department for information.
