*Proceedings of the Madras Government, Public Works Department,
7th August 1872.*

No. 87. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 8th July 1872, No. 1,344.—

With reference to G. O. No. 118, dated 12th February 1872, I have the

- 1 Estimate
- 2 Plans, despatched in separate covers
- 1 Copy of letter No 27, dated 25th May 1872.
- 1 Do No 38, dated 15th June 1872

honour to forward herewith plans and estimate, amounting to Rupees 1,600, for converting part of the ground-floor of the old European Infantry Veteran Company Barracks (lately occupied as

Medical Stores) at Vizagapatam into quarters for two Medical Warrant Officers, and to request you will be good enough to obtain the sanction of Govern-

Budget Item 1—Constructing a new Native Infantry Hospital at Vizagapatam

ment for the same. Funds for this work can be met by transfer from the grant for the work noted in the margin.

Rs 15,830

2. I also forward copies of letters from the Executive Engineer, in connection with the above work, for the information of Government.

3. I do not approve of the method of ventilation below the school-house, the foul air being discharged into the verandahs of the upper-story; but there does not appear to be any other arrangement possible if these buildings are to be so occupied.

No. 88. ORDER THEREON, 7th August 1872, No. 1,858.

MILITARY WORKS, No 6.

The Government sanction the plan with estimate, amounting to Rs. 1,600, for providing quarters for two Medical

Warrant Officers on the ground-floor of the old European Infantry Veteran Company Barracks at Vizagapatam. The attention of the Superintending Engineer is drawn to G. O. No. 1,742, dated 22nd July 1872, regarding the diversion of funds from the grant for the Native Infantry Hospital at Vizagapatam. The question of providing a grant for the quarters in question will be considered when the replies of Superintending Engineers to the reference made to them on the subject of the provision included in the Budget for compensation on account of quarters for Military and Medical subordinates come under review.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

Encl. 3.

Sir,

With reference to G. O.

No 118 of 12th February 1872, I have the honor to forward herewith the plan and estimate for converting part of the ground floor of the old European Infantry Veteran Company Barracks, (lately occupied as a Medical Stores) into quarters for two Apothecaries.

2nd - I have not provided a compound wall as the site being low, a wall round any part of the building would impede ventilation.

The

3. The building was for many years used as a Barracks by the European Infantry Veterans Company until the gradual abolition of that company. As the cross walls now proposed would interfere with the ventilation, I propose to improve the circulation of air in the building by means of tubes in the arched roof opening into a tunnel under the floor of the Army school for boys as shown in the Section at

I have &c

To, The Superintending Engineer
1st Division

Sir,

Doulaiswarum.

With reference to your Memorandum N^o 800 of 31st Ultimo, I have the honor to inform you that it appears to me you must have somewhat misunderstood what I proposed doing at the E. I. V Company Barracks.

2. The Army school for Boys, on top of the old Barracks, has been there for many years, and has stood the severest storms with very trifling injury. The ventilation of the school room, too, has never been complained of. That part of the building is now used as a school, and will continue

to

3. In order that the position of the tunnel may be better understood - I send herewith an additional section of the building - I return the original papers by Book Post.
