*Proceedings of the Madras Government, Public Works Department,
7th August 1872.*

No. 89. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Coimbatore, 18th July 1872, No. 86.—

With reference to G. O. No. 236, dated 28th May 1872, I have the honour to

report that the construction of an iron building for Police quarters, similar to that used for the temporary jail at

Marlimund, will only cost Rupees 520 less than masonry buildings, as per plan enclosed for sixteen Police huts. Moreover, the iron building, though suitable for a temporary jail, occupied only at night, is not so for quarters which will be used day and night by the families of the Police, since they are unbearably hot during the day and very cold at night. I therefore recommend the masonry buildings to the notice of Government for early sanction and provision of funds. Further, I beg to point out that in my letter No. 68 of 3rd July 1872, I recommended that the present temporary buildings attached to the District Jail at Ootacamund should be occupied by the convicts lately employed on the Lawrence Asylum works, and thus increase the number available for the reclamation works.
