I AM directed to request that the quarterly Progress Reports of works constructed from Loan Funds may contain entries regarding every work on which there has been expenditure during the year, whether in progress or not, during the particular quarter to which the report refers.

2. Thus any entries made in the 1st quarter of the year would be brought forward again in each succeeding quarter even though the work be completed or stopped, and would in that case be simply a reprint of former information.

3. Any additional entries made in the 2nd or 3rd quarter would likewise be included in the following quarters or quarter, namely, each quarter's report would exhibit the whole expenditure and entire progress made during the year as well as during the quarter.
