MADRAS RECORD OFFICE.**Government of Madras.***Public works* **DEPARTMENT.**

G.O. No. 1908	Press
191-92	<u>Mis.</u>
Dated 12 . 8	1892.

Not to be folded or roughly handled

No 191. Read the following letter from the Officiating Controller of Public Works Accounts, to the Chief Engineer and Secretary to Government, Public Works Department, dated Fort St George, 16th July 1872, No. 851 —

ADVERTING to paragraph 3 of the Proceedings of Government, No. 1,586, dated 1st July 1872, I have the honour to submit a Statement (A) of the details of the Office Establishments for the several ranges of this Presidency.

2 Mr Brock has intimated to me that the scales of establishment shown in the appendix to the G O. above quoted were decided upon with reference to the details now rendered.

3. I have also the honour to enclose a second statement (B) distributing between the several ranges the sixty-three establishments which are to be allowed under the proposed reorganization. This distribution has been made in accordance with what appears to be the intentions of Government.

4. I cannot however submit a statement of this description without stating my belief that it would tend greatly to the greater efficiency of the accountants of this Presidency if they were placed on one list, divided into grades for the purposes of promotion and transfer; vacancies being filled by deserving members of the lower grades, instead of chance men being appointed accountants of range offices as at present, I believe, often happens. Half-yearly promotion rolls, as in the case of upper subordinates, would bring deserving men to notice for appointment to any posts that might require to be filled. During my experience in Mysore I have found it to be of immense advantage having the accountants of the whole province under my control, though, of course, they are under the immediate orders of the Executive Engineers to whose offices they are attached. In no one case has it been found that the divided authority clashed, as the accountants have never been interfered with except in necessary cases of transfer, orders being invariably conveyed to them through their Executive Engineers. The benefit has resulted from my being able to transfer a good man where he was really wanted, and my being able to utilize second and third-class men in offices that had already been got into thoroughly good order. Another advantage I have found has been that I have been able to give accountants some training in the Controller's Office before sending them to do duty in the Executive Engineers' Ranges. For this latter purpose it would be necessary in this Presidency to have a few spare hands on low pay in the Controller's Office.

Office of the Controller of
Public Works Accounts
Sd/- George 16th July 1872

Sd/- F. H. Fairbairn Captain R.E.
Offr. Controller of P.W. Accounts.

Office of the Controller of
Public Works Accounts
Fort Saint George 16th July 1872.

No 857
From,
The Offg. Controller of W. Accounts,
To, The Chief Engineer and
Secretary to Government,
Public Works Department,
Fort Saint George.
Sir,

Referring to para 3 of
the Proceedings of Government
No 1586, dated 10th July 1872,
I have the honor to submit
a Statement (A) of the details
of the Office Establishments
for the several Ranges of
this Presidency.
2. Mr Brock has
intimated to me that the
Seals

Enclosed in a letter
from the Off Controller
of W. Accounts
to the Chief Engineer
and Secretary to
Government Public
Works Department
dated 16th July 1872

No 857

P. N. 3442/72

1872

scales of Establishment, shown
in the Appendix to the G. O.
above quoted, were decided
upon with reference to the
details now rendered.

3. I have also the honor
to enclose a second Statement
(B) distributing between the
several Ranges the 63 Es-
tablishments which are to
be allowed under the
proposed reorganization.
This distribution has been
made in accordance with
what appears to be the
intentions of Government.
4. I cannot, however,
submit a statement of
this description without
stating my belief that it
would

would tend greatly to the
greater efficiency of the
Accountants of this President-
cy if they were placed on
one list divided into grades
for the purposes of promotion
and transfer; vacancies being
filled by deserving members
of the lower grades, instead of
chance men being appointed
Accountants of Range offices
as at present, which, often
happens. It is my pro-
-motion to have, in the case
of Upper Subordinate, would
bring deserving men to
notice for appointment to
any posts that might
require to be filled. During
my experience in Mysore,
I have

I have found it to be of
immense advantage having
the Accountants of the whole
Province under my control
though of course they are
under the immediate
orders of the Executive
Engineers to whose offices
they are attached. In no
one case has it been
found that the divided
authority clashed, as the
Accountants have never
been interfered with ex-
cept in necessary cases
of transfer orders being
invariably conveyed to them
through their Executive
Engineers. The benefit
has

has resulted from my being
able to transfer a good man
where he was really wanted,
and my being able to
utilize 2nd and 3rd Class
men in offices that had
already been got into the
roughly good order. Another
advantage I have found
has been that I have been
able to give Accountants
some training in the Controller's
office before sending them to
do duty in the Executive Engi-
neers' ranges. For this latter
purpose it would be necessary
in this Presidency to have a
few spare hands on low pay
in the Controller's office.

I have the honor to be,
Sir,
Your most obedient Servant,
J. H. Fair Captain R.E.
Offg. Controller of P.W. Accounts.

P. M. 1872 Department.
