*Proceedings of the Madras Government, Public Works Department,
14th August 1872.*

No. 253. Read the following letter from the Principal of the Civil Engineering College, to the Secretary to Government, Public Works Department, dated Madras, 30th July 1872, No. 295-C:—

I HAVE the honour to submit to you the inconvenience that I think will attend the locating of the Serjeant Major and his family within the precincts of the College when his present residence is destroyed to clear the front of the Board of Revenue Offices. I am afraid that the noise of the children and servants of his establishment, in close proximity to the class-rooms, will seriously disturb the Masters in their instruction of the students.

2. Mr. Chisholm states that at a small expenditure he could bring the building into harmony with the main buildings, consequently there would appear to be no absolute necessity for its removal; and considering also that it is almost a new building and thoroughly adapted for the purpose it serves, I shall be very much obliged if you would solicit the Government to allow it to remain.

No. 254. ORDER THEREON, 14th August 1872, No. 1,941A.

CIVIL WORKS, No. 19.

As a large outlay has been incurred on improvements at Chepauk, the Governor in Council is averse to allow them to be marred, as they will undoubtedly be, by the retention of the building referred to by Captain Rogers in front of the Revenue Board Office.

From

Captain H. Rogers R.E.
Principal of the
Civil Engineering College.

To

Colonel Geo. W. Walker R.E.
Secretary to Government
Department of Public Works,

Madras 30th July 1872.

Sir I have the honor to submit
to you the inconvenience that I think
will attend the locating of the Sergeant
Major and his family within the
precincts of the College, when his present
residence is destroyed to clear the front
of the Board of Revenue Office.
I am afraid that the noise of the
children and servants of his establish-
ment, in close proximity to the class
rooms, will seriously disturb the

Master in their instruction of
the students.

Mr. Chisholm states that at
a small expenditure he could bring
the building into harmony with the
main buildings. Consequently there
would appear to be no absolute necessity
for its removal; and considering also
that it is almost a new building
and thoroughly adapted for the
purpose it serves, I shall be very
much obliged if you would solicit
the Government to allow it to
remain.

I have the honor to be
Sir

Your most obedient servant

H. W. Jones Captain R.E.
Principal of the Civil Engineering College.

We have spent a large
large sum of money in
these improvements, and
I would not allow them
to be marred, as they are
substantially well, by
the destruction of the building
with its out offices to light
in front.
