noted in the margin, the first having reference to the preparation of state-ments showing the financial results from the new forms of account* to be used for Irrigation projects from the 1st April 1872.

2. From these Proceedings it appears that the difficulties which stand in the way of the financial statements being prepared and the new forms of account being introduced in their integrity are—

1st.—The dependence of the Public Works Department on the Revenue Department for certain necessary information; and

2nd.—The division of the districts into circles.

3. The orders of the Government of Madras are, under the circumstances of the case, viewed by the Governor-General in Council as satisfactory; but His Excellency desires that the measures may be expedited so as to effect a speedy settlement of the questions involved. I am to request that a report be submitted to the Government of India as to when it may be expected that the settlement of these questions will be completed.
