No. 85. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 10th August 1872, No. 1,777 :—

ADVERTING to G. O. No. 94, dated 14th November 1871, I have the honour to

1 Estimate.
1 Specification.

forward, herewith, a revised estimate, amounting to Rupees 15,850, for constructing a first-class Taluq Cutcherry

and Subsidiary Jail at Rajahmundry as per revised design which accompanied G. O. No. 232, dated 23rd April 1872, and request you will be good enough to obtain the sanction of Government for the same; funds to the extent of Rupees 8,000 have been provided in the Provincial Budget for the current year for these buildings.

2. I beg to add that the thickness of the wall has been increased by 3", as it is intended to use stone instead of brick, whereby there would be a saving in the cost of the building.

3. The walls of all these buildings are much too slight for the kind of work we can get in India, and having numberless doors and windows in them there is little enough material left to support the roof; at the same time I beg to point out that no sort or kind of ventilation has been provided in any of these standard designs, which is a great want in such a climate as this.

No. 86. ORDER THEREON, 6th September 1872, No. 2,123.

CIVIL WORKS, No. 8.

THE Government sanction the estimate of Rupees 15,850 for the construction of a Taluq Cutcherry and Subsidiary Jail at Rajahmundry on the standard design. The submission of the further estimate for the out-buildings should be expedited, and steps taken for the utilization of the entire grant for the work.
